

# LAST CHAPTER

## REMAINS

Written by **Younes Ben El Haj**

Who thought it could've been like this for all i wished gone  
Who thought it could've changed into a stranger's look  
away

I remember, I remember seeing you for the first time.  
I remember walking up puzzled trying match perfect  
things

I remember last time the happiness and pain.  
I remember whats all left just memories (now memories)  
So why can't i lose all the momories now, why can't i  
So much sacrificed for left by unwakened dream  
I'm trapped in this sordid game, where the ending's  
All the same

I tried to heal your heart with all that i could  
But got mine broken instead  
Ever since the day you left my fate been set alone  
Tell me how many years to walk this path alone? (again)  
So much we planned ahead, so why'd you choose to leave  
Why cant i?

Nothing is harder than to wake up all alone, Realize  
it's not okay, it's the end of all we known  
Time keeps passing by but its seems frozen still  
Tell me do you still even feel a thing?  
Scars are left behind but some too deep to feel

And i've lost my power to feel anymore  
Gave you all i had to give, i hope its worth it

When all is gone and can't be regained  
We can't seem to shelter the pain inside  
The pain is strong and urges rise, your pain is gone  
Time shows now I think I understand my mistake  
Like a memoir i saw it through, In the end

I'd give my life for you.

Once i stood so tall now i'm searching for a sign  
Nothing lasts forever for all good times we had  
I'd choose to trade it all to bring you back  
Some day, some-day when you'll open your mind  
You'll find a mistake that dragged us all behind  
Non' can't be real, u took a piece of me with you.  
Cause' If you'd only see the picture's clear as today, you'd  
still be around

Oooh I can hear the voice's wanting you to stay,  
I suppress them voice's cause' ain't gonna be the same  
They say all love can never die, I say it just moves on  
Oh, i don't need your regret apologizes. Save it for another  
time

Cause we all just need a reason, a reason to stay  
But some can't be bothered to stay for another day  
Oh I ain't worried about anything no more  
Cause' there's somebody that will love us all  
But if we can't be in no relationship with this person and  
make it work

How the fuck you gonn' go be in another relationship and  
make it work, it's the same thing

It's the end of the road, the last chapter remains  
Found a place for you in my mind, where you can stay away  
Everything can finally fade, I hope you find your own way  
What's left to find, the big prize wasted and the days are  
gone.
